Orig. Code(s): DD

Funding Proposals and Applications

The Board has as its primary mission the education of district students according to adopted goals and objectives. To this end all legal and worthwhile financial resources will be pursued.

Grants-in-aid may become available from private sources or federal or state government. The ESD will pursue those grants that will assist the ESD in meeting the adopted goals and objectives of the current curriculum or will create facilities, purchase equipment or otherwise assist in implementing such programs as the Board has previously considered/approved.

The Board directs that each presentation regarding the pursuit of outside funding include the obligations, expectations or encumbrances which will exist when the grant or other outside funding ceases. If a grant opportunity becomes known and there is insufficient time to present it to the Board, the superintendent is authorized to use discretion in approving a grant proposal for submission. The superintendent will review the proposal with the Board at its next regular meetings.

The Board will consider the above criteria as it acts upon requests for grants, will expect a recommendation from the superintendent and a full explanation of all aspects of the proposal before approving any application.

The Board reaffirms its veto power over all grants prior to actual acceptance of funds.

END OF POLICY
