Safety Program

Safe buildings, grounds and equipment will be maintained in order to prevent accidents or injury to students, employees and other community member from fire, natural disasters, mechanical and electrical malfunction and other hazards.

Buildings will be planned, equipped and maintained in accordance with appropriate local, state and federal safety regulations. The superintendent will have overall responsibility for the maintenance and security of the ESD buildings and grounds and for supervision of ESD custodial services.

Buildings will be provided with alarm systems, fire extinguishers and other devices required by state and federal laws and regulations. All buildings and grounds will be inspected regularly for evidence of health and/or safety hazards. Such hazards will be reported immediately to the superintendent, who will see that they are corrected.

The superintendent will implement a safety program which will include, but not be limited to, compliance with and enforcement of all state and federal laws, rules and regulations. The superintendent will appoint a safety officer to assist in implementing the ESD's safety program.

END OF POLICY
