## Special Education - Free Appropriate Public Education (FAPE)

The ESD may assist the local district in their responsibility to provide each student with disabilities with special education and related services which:

1. Are provided at public expense, under public supervision and direction, regardless of the nature or severity of the student's disability and without charge to the parent;
2. Include the variety of education programs and services as per the IEP/IFSP available to other students, including art, music, industrial arts, consumer and homemaking education, vocational education and physical education;
3. Provide an equal opportunity as per the IEP/IFSP for participation in non-academic and extracurricular services;
4. If a parent revokes consent for a student receiving special education and related services, the ESD will not be considered to be in violation of the requirement to make FAPE available to the student because of the failure to provide the student with further special education and related services.
