

## **Knowledge Bowl Middle School Program**

### **Description of Program**

Knowledge Bowl is an interdisciplinary academic contest designed for students in grades 7-12. During the contest, teams of students compete in written and oral rounds by answering questions related to all areas of learning typical of secondary education programs. Questions test students' recall, problem solving, and critical thinking skills.

### **Overview of Regional Program**

The South Coast regional team meets 4-5 times a year at a group agreed upon time at the Boys and Girls Club in Coos Bay. Contests are typically on Wednesdays during the morning hours and students are back to school after lunch. Boys and Girls club provides the space and the lunches for the event.

### **Current Participants**

- Brookings
- Coquille
- North Bend
- Port Orford
- Siuslaw

\*\*We are always looking to expand to more districts. Please consider joining the team!
