

Collaborative Accessibility

South Coast Education Service District is committed to making its electronic and information technologies accessible to individuals with disabilities. This is where you can get involved in that ongoing effort. Whether you are disabled or just wish to support that community, this is where you can learn of our accessibility policies and their implementation initiatives. Just as importantly, you can join our accessibility community to affect those policies and participate in the initiatives. Students, teachers, and change makers -- talk to us.

Accessibility Help

Our mission is to connect you to your educational resources as fast as possible. If you are currently experiencing an accessibility problem, we're here to help.

Communication Options
