Personal Communication Devices and Social Media

Students may be allowed to use and possess personal communication devices on ESD property and at ESD-sponsored activities provided such devices are not used in any manner that may disrupt the learning environment or ESD-sponsored activities, or violate Board policies, administrative regulations, school or classroom rules, state and federal law.¹ As used in this policy, a “personal communication device” is a device that emits an audible signal, vibrates, displays a message or otherwise summons or delivers a communication to the possessor of the device. This includes other digital audio devices such as, but not limited to, iPods.

Students may not access social media sites using ESD equipment, while on ESD property or at ESD-sponsored activities unless the posting is approved by an ESD representative.

Social media Web sites are Web sites such as, but not limited to, Facebook, MySpace and Twitter.

The ESD will not be liable for personal communication devices brought to ESD property and ESD-sponsored activities. The ESD will not be liable for information/comments posted by students on social media Web sites when the student is not engaged in ESD activities and not using ESD equipment.

END OF POLICY
