STAFF OPERATIONS

CHECKOUT

All staff are required to check out/in with the office prior to leaving during the workday. This will enable office staff to respond appropriately in the event of message and emergency situations that may arise.

CHILD ABUSE REPORTING – REQUIRED BY LAW (Policy JHFE)

Any staff member who has reasonable cause or reasonable suspicion to believe that any child under 18 years of age with whom he/she has come in contact has suffered abuse or neglect, or that any adult with whom he/she is in contact has abused a child, shall immediately orally report to the Oregon Department of Human Services, Community Human Services, or local law enforcement agency. The building principal or supervisor is also to be immediately informed. Staff members are required to provide the building administrator written documentation of the report. If the report includes allegations of harassment or abuse between an employee and a student, the principal is to contact the Superintendent immediately.

Oregon law recognizes these types of abuse;

1. Physical;
2. Neglect;
3. Mental injury;
4. Threat of harm;
5. Sexual abuse or sexual exploitation.

Failure to report suspected child abuse or to comply with the confidentiality of records requirements is a violation punishable by law and by district disciplinary action up to and including dismissal. Intentionally making a false report of child abuse is a Class A violation.

A staff member who, based on reasonable grounds, participates in the good faith making of a child abuse report shall have immunity from any liability, civil or criminal, that might otherwise be incurred or imposed as provided by law.

CLASSROOM SECURITY

Staff is asked to refrain from keeping personal items of value in or about their desks. Purses should never be left unsecured. Students should be instructed to leave valuables at home. The district will not be responsible for the loss of or damage to personal property due to such causes as fire, theft, accident or vandalism.

COMMUNICABLE DISEASE/BLOODBORNE PATHOGENS/INFECTION CONTROL PROCEDURES (Policies: EBBA, JHCCB, JHCCA, GBEB, GBEBA)

The district provides for the reasonable protection against the risk of exposure to communicable disease to all staff while engaged in the performance of their duties. Protection is provided through immunization and exclusion in accordance with Oregon Revised Statutes and Oregon Administrative Rules. Infection control procedures, including provisions for handling and disposing of potentially infectious materials, have also been established through Board policy and administrative regulations for staff and student protection.

All staff shall comply with measures adopted by the district and with all rules set by the Oregon Department of Human Services, Health Services, and the County Health Department.

Staff members have a responsibility to report to the district when infected with a communicable disease unless otherwise stated by law.

HBV/Bloodborne Pathogens

The North Bend School District has developed a “Communicable Disease Control Plan” that is available to staff at each building upon request. Each year, staff will be required to participate in training on the procedures to prevent and lessen the chance of occupational exposure to bloodborne pathogens in the workplace.

Employee classifications that have been identified as at-risk for exposure include: **Custodians, PE teachers, shop teachers, teachers or assistants assigned to feed, toilet and perform other personal hygiene functions for students, football and wrestling coaches, secretaries responsible for assisting students with illness and/or injuries, or staff members designated as primary first-aid providers.**

The identified staff members, and any additional staff who may otherwise incur occupational exposure to blood or other potentially infectious materials in conjunction with their assigned duties as determined by the district, will receive appropriate information and training as follows:

1. At the time of initial assignment to tasks where occupational exposure may take place;
2. At least annually thereafter and within one year of their previous training;
3. When changes such as modification of tasks or procedures or new tasks or procedures affect the staff member’s chance of occupational exposure.

Report any occupational exposure to bloodborne pathogens to the building administrator or designee. Following a report of an exposure incident, the district will immediately make available to the exposed staff member a confidential post-exposure evaluation and follow-up.

Employees who use medical sharps in the performance of their duties (e.g., administering injectable medicines to students, such as epinephrine and glucagon) will annually be provided an opportunity to identify, evaluate and select engineering and work practice controls (e.g., sharps disposal containers, self-sheathing needles, safer medical devices, such as sharps injury protections and needleless systems). The district will implement such work practice controls as appropriate.

Infection Control Procedures

Appropriate hygienic and sanitation practices have been established by the district as follows:

1. Standard precautions are to be followed at all times. Standard precautions require the assumption that staff and students approach infection control as if all direct contact with human blood and body fluids is known to be infectious for HIV*, HBV and/or bloodborne pathogens;
2. Whenever possible, students should be directed to care for their own minor bleeding injury. This includes encouraging students to apply their own band-aids. If assistance is required, band-aids may be applied after removal of gloves if caregiver will not come into contact with blood or wound drainage;
3. Food and Drug Administration (FDA) approved gloves are required for all tasks in which an individual may come into contact with blood or other potentially infectious materials. Such tasks include cleaning body fluid spills, emptying trashcans, handling sharps/containers, handling contaminated broken glass, cleaning contaminated equipment and handling contaminated laundry/clothing. This also includes assisting with any minor wound care, treating bloody noses, handling clothes soiled by incontinence, diaper changing and cleaning up vomit;
4. Immediate, complete and effective hand washing with soap and running water of at least 30 seconds duration should follow any first aid or health care given a student or contact with potentially infectious materials;
5. If exposure to blood or other potentially infectious materials occurs through coughing, any first-aid procedure or through an open sore or break in the skin, thorough washing, preferably with germicidal soap, is necessary;
6. In the event hand-washing facilities are not readily available, thorough cleaning using an antiseptic cleanser and clean cloth/paper towels or antiseptic towelettes provided by the district as an alternative is necessary. In the event alternatives are used, hands must be washed with soap and water as soon as feasible;
7. Contaminated work surfaces shall be decontaminated with an appropriate disinfectant after completion of procedures; immediately or as soon as feasible when surfaces are overtly contaminated or after any spill of blood or other potentially infectious materials; and at the end of the work shift if the surface may have become contaminated since the last cleaning. Clean surfaces

- with soap and water and then rinse with an Environmental Protection Agency (EPA) approved disinfectant** following labeling instructions for use, or a freshly-made solution of one part bleach to nine parts water, and allow to air dry. These surfaces include equipment, counters, mats (including those used in physical education classes and athletic events), toys or changing tables.
8. An EPA-approved disinfectant must be used when cleaning fluids such as blood or vomit from the floor or other such contaminated surfaces;
 9. Contaminated laundry such as clothing and towels must be placed and transported in bags and containers in accordance with the district's standard precautions. All such items must be laundered in hot or cold water and soap and placed in a dryer;
 10. Needles, syringes, broken glassware and other sharp objects found on district property must not be picked up by students at any time, nor by staff without appropriate puncture-proof gloves or mechanical device such as a broom, brush and dust pan. Any such items found must be disposed of in closable puncture resistant, leak proof containers that are appropriately labeled or color-coded;
 11. All wastebaskets used to dispose of potentially infectious materials must be lined with a plastic bag liner that is changed daily;
 12. Gloves and repellent gowns, aprons or jackets are required for tasks in which exposure to blood or other potentially infectious materials can be reasonably anticipated to contaminate street clothing. Type and characteristics of such protective clothing will depend on the task. Such tasks may include diapering/toileting with gross contamination, assisting with wound care, sorting or bagging contaminated laundry/clothing and disposing of regulated waste with gross contamination;
 13. Maximum protection with gloves, face and/or eye protection and gowns are required whenever splashes, spray, spatter or droplets of blood or other potentially infectious materials may be generated and eye, nose or mouth contamination can be reasonably anticipated. Such tasks may include feeding a student with a history of spitting or forceful vomiting and assisting with severe injury and wounds with spurting blood;
 14. If a first-aid situation occurs, students should report to a person in authority, staff should report to a supervisor.
- * HIV - Human Immunodeficiency Virus
 HBV - Hepatitis B Virus
- ** Disinfectants that can be used include Lysol, Purex, Clorox, Tough Act bathroom cleaner, Dow bathroom cleaner, Real Pine liquid cleaner, Pine Sol, Spic and Span, Tackle liquid, Comet and other products with EPA numbers. Other disinfectants as recommended by the Center for Disease Control may be used.

Staff Complaints (Policy GBM)

Staff member complaints contending a violation, misinterpretation or inappropriate application of district personnel policies and/or administrative regulations should be directed to the immediate supervisor for informal discussion and resolution.

If the complaint is not resolved informally, formal complaint procedures may be initiated by staff in accordance with Board policy and administrative regulations.

This complaint procedure may not be used to resolve disputes and disagreements related to the provisions of any collective bargaining agreement.

Technology Acceptable Use Procedure

1. **System Use.** Acceptable use of technology including, but not limited to, computers, software, telephones, Internet, e-mail, fax machines and similar equipment, by staff and students, is for the purpose of:
 - enhancing educational opportunities for students; improving employee productivity in their work assignments;
 - enhancing staff and student ability to communicate with others regarding their work. Such use must be responsible, ethical, efficient and legal.
2. **Employee and Student Privacy in the Use of Technology.** Because technology is provided to accomplish the work of the school district, employees and students have a limited expectation of privacy in their use of the technology. Routine maintenance and monitoring of the system may lead to discovery that staff or student has violated law, regulation, procedure or policy. An individual search, within the context of the suspected violation, may be conducted when reasonable suspicion is established.
3. **Violations.** Employee violations of law, regulation, policy or procedure may result in discipline to

and including dismissal and/or report to the Teacher Standards and Practices Commission and legal authorities. Student violations may result in discipline according to the school's procedures.

4. Personal Use of District Technology by employees. Personal use of district-owned technology resources is permitted on the employee's non-work time, for non-prohibited uses, and when the District incurs no added cost because of the employee's use and when the use does not violate current Government Ethics rules. Employees are responsible for supervising compliance with the AUP for all equipment that is assigned to them at work and/or used out of school.
5. Inappropriate and Prohibited Use of Technology for Employees and Students Includes:
 - violations of state or Federal law or regulation, violations of NBSD Board policies or administrative regulations, and violations of school regulations;
 - use of technology to interfere with or disrupt other users, services or equipment;
 - use of district resources primarily to benefit a commercial operation or political activity;
 - raising funds for outside organizations;
 - political lobbying, except for communication with elected representatives;
 - propagation of computer worms or viruses;
 - unauthorized entry to other computational, informational or communications devices;
 - violations of copyright law;
 - attempts to intentionally transmit or access any media, or to engage in a conference or e-mail that includes material which is libelous, obscene, indecent, vulgar, profane, lewd, threatening, harassing or insulting;
 - attempts to intentionally transmit or access any material or advertisement for any product or service not permitted to minors by law; more than minimum use for personal business; and invasion of the privacy of other users, e.g. posting personal information.
6. Inadvertent Misuse. If a user inadvertently encounters inappropriate or prohibited material, s/he should promptly report the occurrence to the supervisor in writing.

Children's Internet Protection Act (CIPA Executive Order, 4/01).

NBSD will enforce the provisions of the Children's Internet Protection Act when students have access to technology provided by NBSD or supervised by NBSD staff. Provisions include:

- A) **Internet Filtering:** "Measures to block or filter Internet access for both minors and adults to certain visual depictions. These include visual depictions that are (1) obscene, or (2) child pornography, or, with respect to use of computers with Internet access by minors, (3) harmful to minors. An authorized person may disable the blocking or filtering measure during any use by an adult to enable access for bona fide research or other lawful purpose."
- B) **Staff Supervision:** All student use of technology will be under the direct supervision of a staff member who will monitor the online activities of all students, especially: "(1) access by minors to inappropriate matter on the Internet and World Wide Web; (2) the safety and security of minors when using electronic mail, chat rooms, and other forms of direct electronic communications; (3) unauthorized access, including so-called "hacking," and other unlawful activities by minors online; (4) unauthorized disclosure, use, and dissemination of personal information regarding minors."
- C) **Report of Violation to School Administration:** Staff who supervise student use of technology in schools are responsible for knowing and following the school district's Acceptable Use Policy (AUP). They must report student violations to the school administration.

CONTRACTS AND COMPENSATION

Substitute employees are paid an hourly rate.

It is the staff member's responsibility to provide all information necessary for placement on the salary schedule to the human resource office in accordance with timelines established by the district and collective bargaining agreements. In addition all staff members are responsible to review their

timesheet and monthly pay stubs to ensure that their placement and salary is correct. **Failure to bring an error to the attention of the administration in a timely manner may result in denial of additional compensation for dates in question.**

CRIMINAL RECORDS CHECKS/FINGERPRINTING (Policy GCDA/GDDA)

All classified employees, including classified substitutes and coaches, are required to complete a State and National criminal history check and be fingerprinted. Fingerprinting for classified employees and substitutes can be done by the Personnel Department, prior to beginning employment with the School District. All persons newly employed with the district in regular, temporary and/or coaching positions are required to successfully pass drug screen as required by Board policy and law.

Employment will be offered pending the return and disposition of such checks. All offers of employment are contingent upon the successful results of such checks.

All newly licensed or registered educators and those applying for reinstatement of a license that has expired for more than three years are required to submit to nationwide criminal records check and fingerprinting in accordance with rules and procedures as set forth by TSPC.

The following procedures will be used for all newly hired, non-licensed and non-registered employees subject to criminal records checks and/or fingerprinting:

DISCIPLINE AND DISCHARGE

Discipline and dismissal of staff will follow due process, relevant provisions of collective bargaining agreements and applicable law.

DRUG-FREE WORKPLACE (Policy GBEC)

The North Bend School District acknowledges the important role that educational institutions play in helping to create a healthy, safe environment. The district accepts the commitment to combat drug and alcohol abuse in the workplace, and in the community. It is the policy of the district to prohibit the use or presence of illegal drugs, controlled substances, and/or alcohol such that there would be any detectable level of these items present in the individual's system in the workplace

Definitions

- Alcohol:** Any form of alcohol for consumption, including beer, wine, wine coolers or distilled liquor.
- Drugs:** Includes any narcotic drug, hallucinogenic drug, amphetamine, barbiturate, marijuana or other illegal drug or controlled substance.
- Under the Influence:** Any consumption of an unauthorized controlled substance, illegal drug, or alcohol such that there would be any detectable level of these items present in the individual's system. (For authorized use of a controlled substance, see implementation of the policy.)
- Workplace:** Any site where work is performed for the district for which the employee is providing a service for the district, receiving compensation or is responsible for the supervision of students

Procedures

1. Awareness
 - A. The district shall post notice of this policy and procedure in visible workplaces, such as staff manuals and/or faculty bulletin boards, throughout the district.
 - B. Supervisors annually will provide notice to employees of:
 1. The district's policy of maintaining a drug-free workplace
 2. Sanctions that may be imposed upon violation of this policy
2. Workplace Guidelines
 - A. As a condition of employment, an employee shall abide by the terms of the district's drug-free workplace policy and shall notify the employer of any criminal drug conviction for violations occurring in the workplace no later than five (5) days after such conviction. The district shall notify the federal granting agency within ten (10) days after receiving notice of an employee's conviction of any criminal drug statute violation occurring in the workplace.
 - B. Any employee convicted of a criminal drug statute violation occurring in the workplace shall be subject to appropriate sanctions, including but not limited to, required participation in substance abuse assistance program, oral or written discipline, suspension, non-renewal or termination of employment.
 - C. Any employee of the district who is aware of student use or the possession of alcohol, illegal drug or controlled substance in the workplace, as defined above, shall notify his/her immediate supervisor, the person in charge of the activity, or the superintendent.
 - D. Any employee of the district who is aware of another employee's use or possession of alcohol, illegal drugs or controlled substances in the workplace is encouraged to inform his/her immediate supervisor, the superintendent, or the person in charge. Knowingly providing false information alleging violation of this policy shall allow disciplinary action against the reporting employee.

Implementation of the Policy

1. Authorized Use of a Controlled Substances
 - A. An employee who knowingly uses a prescription drug or other authorized controlled substance that has potential to impair or negatively affect job performance or create a risk of injury to any person at the worksite, shall notify the immediate supervisor of such use.

In the event that such authorized use, in the judgment of the supervisor, impairs or negatively affects the ability to perform the job responsibilities, or creates a risk of injury

to any person, the district shall take appropriate remedial action including, but not limited to, temporary re-assignment, allowance of the use of unpaid leave or accumulated sick leave, or other leave for treatment to correct the effect on job performance or risk of injury.

2. Unauthorized Use of a Controlled Substance, Alcohol, or Illegal Drug

- A. Where there is a reasonable cause to believe that an employee is under the influence of alcohol, illegal drugs, or a controlled substance, or has ingested alcohol, illegal drugs, or a controlled substance at the workplace, the district may, as part of its investigation, require the employee to be examined by medical staff for the purpose of determining whether the employee is fit for duty.
- B. Initial assessment, including any possible examinations by a physician for illegal drugs, controlled substances or alcohol shall be at district expense. Should the attending physician refer the employee for drug/alcohol testing, such test shall be a gas chromatography/mass spectroscopy (GC/MS) test or other approved test for such substances. Should the results of the test be positive, the affected employee, his/her designated representative if requested, and an individual designated by the district shall receive the results, including a statement of the employee's unfitness/fitness to return to the workplace.
- C. Instead of disciplinary action for a violation of this policy, the district may require an employee to obtain an assessment of the employee's controlled substance or alcohol problem. Such assessment shall be based on unpaid leave, paid sick leave, or other such leave as the district may grant available under law, collective bargaining agreements and insurance policies that are applicable.
- D. Should the affected employee voluntarily enter a substance abuse program, the district will support the rehabilitation effort by providing unpaid leave or accumulated paid sick leave, vacation leave, or other leave, as applicable under law and collective bargaining agreements, to further the employee's rehabilitative effort. The district may require certification from a medical doctor and/or treatment provider to verify that an employee is able to return to work. Failure of the employee to adhere to the treatment program may necessitate sanctions consistent with this policy.

- E. District property and equipment are furnished and made available for work-related purposes, and are not to be used in connection with unauthorized conduct related to controlled substances or alcohol.

A supervisor may only make a search related to a violation of this policy that is permitted by law, and that is based upon report of a fellow employee, or based on work-related job performance effects.

- F. The district may take appropriate disciplinary action against an employee who violates this policy, including reprimand, suspension, requiring an employee to submit to an appropriate treatment program and/or discharge. Any disciplinary actions are subject to provisions of the existing labor contracts.

Board policy regarding drug and alcohol free environment reflects the previous information as well as TSPC standards for ethical behavior of licensed employees.

For purposes of this policy it should be strongly noted that NBSD employees are never to appear on duty at the workplace under the influence of an unauthorized controlled substance, illegal drug or alcohol. "The workplace" means any place where work is performed for the district for which the employee is providing a service for the district, receiving compensation or is responsible for the

supervision of students. Pursuant to this policy, the phrase “under the influence” means the consumption of an unauthorized controlled substance, illegal drug, or alcohol such that there would be any detectable level of these items present in the individual’s system.
